

Zen Integrative Oncology Protocol

For Cancer Treatment, Side Effect Management and Recurrence Prevention

About Zen Integrative Oncology Protocol:

The Zen Integrative Oncology Protocol is an all-inclusive cancer elimination protocol which combines evidence-based complementary therapies with mainstream care, optimising physical, psychological and spiritual well-being.

This comprehensive treatment plan has been brought to you by Certified Oncologists, Nutritionists, Wellness Therapists and Cancer Coaches. It includes:

- Access to leading oncologists and cutting edge medical treatment
- Free consultation on high-end advanced diagnostics test
- Curated program combining the benefits of Allopathy, Anti-cancer Foods, Physical Activity, Emotional wellness, Healing Environment and Complementary treatments
- Dedicated Cancer Coach for your personalised care and regular check ups
- Awareness and knowledge about advanced cancer treatment
- Access to the Zen Global Community of cancer patients and survivors. Free profile matching by cancer type, stage and case history.

Benefits of the Zen Integrative Oncology Protocol:

- Enforces correct treatment protocol through second opinion by doctors from leading hospitals
- Prepares the body for conventional treatments by boosting immunity
- Focuses on both Mind and Body
- Personalised to your case history and diagnosis
- Heals you from within
- Strengthens healthy cells and diminishes cancerous cells
- Manages side effects of Chemotherapy, Radiation and Surgery
- Regular Health check ups for monitoring health status and dosage
- Dedicated cancer coach

For Cancer Treatment, Side Effect Management and Recurrence Prevention
